Public Health calls them data points.

I call them ***Storytellers Of Health.***

Why are stories important?

- DATA IS STORY

What is our responsibility to the storyteller?

- Care and protect them from harm

What is our responsibility to the story?

- Meaningful intent for the good and wellbeing of the people

A person is captured mid-jump in a grassy field. They are wearing a dark t-shirt with a colorful graphic and dark pants. Their right arm is raised high, and their left arm is extended outwards. The background is a vast, open landscape under a dark, cloudy sky. The overall mood is one of freedom and achievement.
